

Answer Key:

Errors you may have caught:

1. Pauline's death date would mean that she died before she married. There's probably something wrong.
2. Pauline and James have the same parents listed. Based on surname alone, they are probably James's parents.
3. Newell died before he was born.
4. Rose lived and died in Europe. She probably doesn't belong to a family from Utah.
5. Michael's birth is after his father is dead.
6. There are large gaps between the children. We are probably missing some children. Remember, children are typically born 2-4 years apart.
